

1. On your android device go to settings and wireless networks. Make sure Wi-Fi is turned on.
2. Go to Wi-Fi Settings
3. Tap to connect to the ARA-WIFI network

4. On the connection screen that opens you will need to make sure Android has the following settings:
 - EAP Method is PEAP.
 - Phase-2 authentication is MSCHAPv2.
 - Identity is your everyday Moodle/Computer username.
 - Password is your everyday Moodle/Computer password.

5. Do not set anything in the Anonymous Identity field. Verify the details match this screen and tap on connect.
6. Once completed you will be connected to the Internet and will receive no further prompts now or in the future unless your password changes.

For Help

If you cannot connect or require assistance please contact the ICT Service Desk at (03) 940 8800 or email ICTServiceDesk@ara.ac.nz.
